Standard Laminate Collection

Textures & Surfaces

Decors and textures work together to create surfaces that look and feel like the real thing. From subtle and bold to matt and gloss, our textures work well on their own or in combination to create something new.

Decors and textures in the app

1. Download the new EGGGER Decorative Collection App and use in conjunction with this brochure or your swatch.
2. Use the scanning function to capture any decor or texture code.
3. Access:
 - Your chosen decor in full board and 3D
 - Quick sample ordering
 - Availability information

Woodgrain textures

The right texture is vital if you want to make a woodgrain reproduction stand out. Our woodgrain textures are created with matt-gloss effects, gently brushed pores, soft hollows, and authentic cracks, to give an impressive natural appearance.

A highly authentic and realistic texture for woodgrain reproductions.

An irregular distribution of linear pores, of various depths, gives the surface a natural look. A light sub-structure gives a velvet feel to the surface.

A linear finish with a matt-gloss effect creates authenticity. The texture aligns with lightly-planked woodgrain decors. It can also be used with solid colours for a painted wood look.

A deep brushed finish with a matt-gloss linear grain, provides a realistic surface for linear woodgrains.

Scan the decor texture code using the app.

Matt and gloss surfaces

Use matt and gloss surfaces for a high-end look.

A pearl texture, with a medium gloss level. This surface is robust, durable and is best used with uni and pearlescent colours.

Used with uni colours and woodgrains offering a very soft and natural feel. This texture supports the trend for matt surfaces.

A smooth, flat, and easy-care surface with reduced gloss. It highlights the quality of elegant wood and material reproductions.

Material and metal textures

Reproductions of stone and metal are becoming increasingly important. These decors are given the desired authenticity and character through the appropriate texture.

A rough plaster look, containing both deep and glossy elements. On reproductions of concrete, metal and stone it creates an authentic finish. It also gives uni colours a striking material character.

Metallics are popular in on-trend furniture design. ST20 Metal Brushed gives pearlescent and metallic decors the look and feel of finely sanded metal.

A matt-gloss effect, simulating the surface and feel of a ceramic sheet.

Scan the decor texture code using the app.

View our textures in 3D with our new visualiser

Experience EGGER finishes in 3D to visualise how the surface would look in an interior. Available on egger.com and the app.

All decors shown and mentioned are reproductions.
